Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in response to Applicant's amendment filed on 25 October 2006.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 16, and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Dawson (U.S. Patent 1,896,840).
4. Regarding claim 1, Dawson discloses a ring mechanism for a loose-leaf binder (see figure 1) comprising: a thin, elongate plate 16, at least two ring members 19/21 supported by the elongate plate for relative movement of the ring members between an open position in which the ring members are spaced apart and loose-leaf pages may be received on and removed from at least one of the ring members, and a closed position in which the ring members are engaged to form a ring which is configured to capture the loose-leaf pages on the ring while permitting movement of the pages along the ring, a pair of elongate leaves 25 (left and right in figure 2) disposed beneath the elongate plate 16 and carried by the elongate plate 16 (by rivets 24), the leaves 25 each mounting a respective one of the ring members 19/21 and being pivotable relative to the elongate

Art Unit: 3722

plate between said open and closed positions of the ring members (pivotal relative to the elongate plate by pushing on thumb pieces 29), the elongate plate 16 having longitudinal ends (left and right sides of plate 16 in figure 2), at least one of the longitudinal ends including first 31 and second 15 end portions (second end portion 15 is adjacent first end portion 31 and visible from the end view of the binder, see right side of figure 2) located on one transverse side of the elongate plate (see figures 1 and 2), said first and second end portions being bent over to present a longitudinally facing surface which is blunt (blunt portion formed by end portion 31 and end of end portion 15, see figure 1).

5. Regarding claim 16, Dawson discloses wherein said first 31 and second 15 end portions are in flatwise contact with one another (the end portions 31 and 15 are flat against each other at their contact edges, see figures 1 and 2).

6. Regarding claim 22, Dawson discloses the ring mechanism being secured to the loose-leaf binder (see figure 1).

Allowable Subject Matter

7. Claims 17-21 are allowed.

Response to Arguments

8. Applicant's arguments with respect to claims 1, 16, and 22 have been considered but are moot in view of the new ground(s) of rejection.

9. For the reasons as set forth above, the rejections are maintained.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
